Important Information

Thank you for purchasing this Panasonic digital cellular phone. This phone is designed to operate on GSM networks – GSM900 and GSM1800. It also supports GPRS for packet data connections. Please ensure the battery is fully charged before use.

Safety Considerations

The following information should be read and understood as it provides details which will enable you to operate your phone in a manner which is both safe to you and your environment, and conforms to legal requirements regarding the use of cellular phones.

This equipment should only be charged with approved charging equipment to ensure optimum performance and avoid damage to your phone. Other usage will invalidate any approval given to this apparatus and may be dangerous. Ensure the voltage rating of the Fast Travel Charger is compatible with the area of use when travelling abroad. A Fast Travel Charger (EB-CAX70xx*) is supplied with the Main Kit. Other recommended equipment for charging – Car Charger (EB-CDX70).

Note* xx identifies the Charger region, e.g. CN, EU, UK, AU, US.

Use of another battery pack than that recommended by the manufacturer may result in a safety hazard.

If you use a feature which keeps the key backlight on continuously for a long time, such as the camera, a game or the browser, battery life will become extremely short. To maintain longer battery life, set the key backlight to off. See “Settings” on page 96.

Switch off your cellular phone when in an aircraft. The use of cellular phones in an aircraft may be dangerous to the operation of the aircraft, disrupt the cellular network and may be illegal. Failure to observe this instruction may lead to the suspension or denial of cellular phone services to the offender, or legal action or both.

Do not incinerate or dispose of the battery as ordinary rubbish. The battery must be disposed of in accordance with local regulations and may be recycled.

It is advised not to use the equipment at a refuelling point. Users are reminded to observe restrictions on the use of radio equipment in fuel depots, chemical plants or where blasting operations are in progress. Never expose the battery to extreme temperatures (in excess of 60°C).

It is imperative that the driver exercises proper control of the vehicle at all times. Do not hold a phone while you are driving; find a safe place to stop first. Do not speak into a handsfree microphone if it will take your mind off the road. Always acquaint yourself thoroughly with restrictions concerning the use of cellular phones within the area where you are driving and observe them at all times.

Care must be taken when using the phone in close proximity to personal medical devices, such as pacemakers and hearing aids.

Do not leave the camera facing direct sunlight to avoid impairing the camera performance.

For most efficient use hold the phone as you would any normal phone. To avoid deterioration of signal quality or antenna performance, do not touch or “cup” the antenna area while the phone is switched on. Unauthorised modifications or attachments may damage the phone and violate applicable regulations. The use of an unapproved modification or attachment may result in the invalidation of your guarantee – this does not affect your statutory rights.

This phone should only be used with Panasonic approved accessories to ensure optimum performance and avoid damage to your phone. Panasonic is not responsible for damages caused by using non-Panasonic approved accessories.

This Panasonic mobile phone is designed, manufactured and tested to ensure that it complies with the specifications covering RF exposure guidelines applicable at the time of manufacture, in accordance with EU, USA FCC and Australian ACA regulations.

Please refer to our website for latest information/standards and compliance in your country/region of use.

<http://www.panasonicmobile.com>

Care and Maintenance

Pressing any of the keys may produce a loud tone. Avoid holding the phone close to the ear while pressing the keys.

Extreme temperatures may have a temporary effect on the operation of your phone. This is normal and does not indicate a fault.

The display quality may deteriorate if the phone is used in environments over 40°C for a long time.

Do not modify or disassemble the equipment. There are no user serviceable parts inside.

Do not subject the equipment to excessive vibration or shocks.

Do not drop the battery.

Avoid contact with liquids. If the equipment becomes wet, immediately remove the battery and contact your dealer.

Do not leave the equipment in direct sunlight or a humid, dusty or hot area.

Keep metallic items that may accidentally touch the terminals away from the equipment/battery.

Batteries can cause property damage, injury or burns if terminals are touched with a conductive material (i.e. metal jewellery, keys, etc.).

Always charge the battery in a well ventilated area, not in direct sunlight, between +5°C and +35°C. It is not possible to recharge the battery if it is outside this temperature range.

When connecting the phone to an external device, read the operating instructions of the equipment for the correct connection and safety precautions. Ensure the phone is compatible with the product it is being connected to.

When disposing of any packing materials or old equipment check with your local authorities for information on recycling.

Getting Started

Some services described in this manual are network dependent or may only be available on a subscription basis. Some functions are SIM dependent. For more information contact your service provider.

Inserting and Removing the SIM

The SIM is inserted into the back of the phone underneath the battery.

Insert the SIM

Slide your SIM card (with the gold contacts facing downwards) into its holder, making sure that the cut-out corner is aligned.

Remove the SIM

Slide out the SIM while pressing the stopper attached to the SIM on the left.

NOTE: If you are upgrading your phone and your previous phone did not support new services, such as MMS (Multi Media Messaging), you may need to insert a new SIM. Contact your service provider.

Attaching and Removing the Battery

Before removing the battery, ensure that the phone is switched off and the charger is disconnected from the phone.

Attach the battery

Remove the battery

Charging the Battery

Connecting and disconnecting the Fast Travel Charger

The battery must be attached in the phone before the charger is connected. Press the button on the top of the connector and insert it into the base of the phone.

NOTE: Do not force the connector as this may damage the phone and/or the charger.

Connect the charger to the mains power supply. When the phone is charging, the charging indicator will light and a scrolling icon will appear in the main display.

When charging is complete switch off the mains power supply and disconnect the charger.

Operation of Battery Level Indicator

While charging	Charging complete
	

Charging Indicator will go out when charging is completed.

Low Battery Power Warning

When the battery power is low, a warning tone will sound and a **Battery low** message will be displayed. If this occurs during conversation, finish your call immediately. The power will automatically switch off after the warning tone. Fully recharge the battery. See "Charging the Battery". (Calls can be made and received while the phone is charging.)

NOTE: Some settings may be lost if the battery is removed or remains discharged for more than 1.5 hours.

Keys & Displays

Keys

Key	Function		
	Navigation Key: Select and save settings, and scroll/move through menus, text and Contacts. Also serves as shutter button for the camera and to control movements while playing games.		
		SELECT	Press centre to select option or to save.
		SCROLL	Press top or bottom edge to move screen cursor up or down.
		MOVE	Press left or right edge to move screen cursor left or right.
	Left Soft Key: Perform function displayed in lower left corner of the display. From Idle, press to open Messages Menu.		
	Right Soft Key: Perform function displayed in lower right corner of the display. Mainly used to cancel and return to previous menu level or to delete text/number entries. Press and hold to delete all characters in text entry mode. From Idle press to open Browser Menu.		
	Send Key: Make a call, recall recently dialled phone numbers or answer a call.		
	Power/End Key: Press and hold to switch phone on/off. When the phone is on, press briefly to end a call. During key operation, press to return to Idle mode.		

Key	Function
	<p>1 Key/Voicemail Key: Press and hold  to retrieve voicemail messages.</p> <p>1-9 Number Keys: Enter numbers. Press and hold a single key (2~9) for Speed dial. In text entry mode, enter text, numbers and characters.</p>
	<p>0 Number Key: Enter number. In text entry mode, enter number and characters.</p> <p>International Dialling Prefix Key: Press and hold  to enter + (the international dialling prefix) while entering a phone number.</p>
	<p>Asterisk Key: During text entry mode, press to switch between upper case and lower case letters. Changes Input mode (Hold).</p>
	<p>Pause Key: Press and hold to enter a pause (P) while entering a phone number. In text entry mode, press to enter a space. Press and hold to enter a line feed.</p> <p>Quiet Mode Setting Key: From Idle, press and hold to turn Profile Quiet on/off.</p>
	<p>Multi Function Key (located at the right side of the phone): Press to enter camera mode, then press again to take a picture. To save a picture, press one more time.</p> <p>Turns ring tone off and stops vibration when receiving a call (Alert Mute).</p>

Shortcuts

When you are familiar with the menu system, you can use the keypad to access features instead of navigating through the display menus.

Short press (from Idle)

Key	Function
 or 	Messages
 or 	Browser
	Menu
	Shortcuts
	Contacts

Key	Function
 ~ 	Call dial field
   	
	Dialled numbers
	Camera Alert Mute

Long press (from Idle)

Key	Function
	Voicemail
  ~  	Speed dial
 	Quiet Mode Setting

Display

With some operations, the display automatically clears after 2.5 seconds or after pressing any key.

Different icons are shown, depending on the features you are using and the options you have selected. Icons appear on the main display as shown in the following table.

Icon	Indicates
	Signal strength The more bars visible, the stronger the signal.
	Battery charge level
	Battery is charging
	GPRS is active
	Profile setup
	SMS message storage area is full
	MMS message storage area is full
	Java™ (Suspended)
	Unread SMS message
	Unread MMS message

Icon	Indicates
	Unread Wap push message
	Call divert is on
	Infrared is active
	New Vodafone mail message received
	Ring Volume 0
	Vibration alert is on
	Alarm is set
	On-line browsing during CSD (Non-Secure)
	On-line browsing during CSD (Secure)
	On-line browsing during GPRS (Non-Secure)
	On-line browsing during GPRS (Secure)

Illumination Light

Function	Luminous colour	Light goes out
Incoming Call	Purple	Switchover to voice call (Blue), or if call is missed (Yellow)
Call in progress	Blue	Call ended
Missed call notification	Yellow	Mobile phone status: Closed LED goes out when phone is opened or the Multi Function Key is pressed. Mobile phone status: Open LED goes out by pressing any key or if phone is closed.
Message notification (SMS or MMS or WAP Push)	Green	Mobile phone status: Closed LED goes out when phone is opened. Mobile phone status: Open LED goes out by pressing any key or if phone is closed.
Alarm notification	Red	After alarm is ended (30 seconds) or any key is pressed.

NOTE: Flash interval of these illumination depend on network condition.

How to Use this Phone

Symbols Used in the Manual

The table below shows the symbols used throughout these instructions and the corresponding meaning in the column on the right.

Symbol	Meaning
	Press centre of the Navigation key to select option or to save.
	Direction in which you can move on the display screen with the Navigation key.
	Shows possibility of moving in any direction (up, down, left and right) on the display screen with the Navigation key.
	Shows possibility of moving up and down on the display screen with the Navigation key.
	Shows possibility of moving left and right on the display screen with the Navigation key.
	Press Left Soft Key.
	Press Right Soft Key.
	Press centre of Navigation key or Left Soft Key.
	Number keys
	Asterisk key.
	Pause key / Quiet Mode Setting key.
	Press Send Key.
	Press Power/End Key.
	Indicates that a function is SIM dependent.
	Indicates that a function is network dependent.

Selecting a Menu Option

From Idle, press the centre of the Navigation key  to open the main menu display. The main menu display has 9 options.

Phone Basics and Managing Calls

Switching Phone ON/OFF

- 1 Press and hold  for three seconds
- 2 When the phone is switched on, a greeting may be displayed and the phone then enters the Idle mode.
Press and hold  again to switch phone off

NOTE: When switching the phone off, use only  to avoid damaging the phone.

Displaying Menu

- 1 To access the Menu, press  in Idle mode.
- 2 The Menu will be displayed.
(The Menu may vary depending on your SIM.)

Making Calls

- To make a call, start in Idle mode.
- Ensure network name and  appear on the display.

Standard Dialling

- 1 Enter phone number (  ~  ,    )
- 2 

Contacts Dialling

- 1  **Contacts** (see "Shortcuts" on page 9)
- 2  required contact 

Recent Number Dialling (Calls Made or Received)

- 1 
- 2  **Dialled numbers, Answered calls or Missed calls**
- 3  required contact 

International Dialling

The international code for the destination country/region should be entered, followed by the area code and phone number.

- 1 Press and hold **0 +**
- 2 Enter country/region code
- 3 Enter area code and phone number 

NOTE: Many countries/regions include an initial "0" in the area code. This should, in most cases, be omitted when dialling international numbers. If you have difficulties making international calls, contact your service provider.

Emergency Call

To make an emergency call the antenna () must be present.

If SIM is installed enter emergency number 

If SIM is not installed,

- 1 
- 2  **SOS**
- 3  / 

NOTE: Making emergency calls without a SIM installed is country or network operator dependent.

Answering Calls.....

Press any key except  /  /  / 

Ending / Rejecting Calls

 /  or fold the phone during an incoming call to reject the call or end a call in progress.

Managing Calls

Voicemail

You need to subscribe to the voicemail service through your service provider before you can retrieve voicemail messages. To check if voicemail access has been configured, press and hold **1**. See "Voicemail" on page 67 on how to programme.

- 1 When a new voicemail message is received, an alert sounds and **VM** appears in lower part of the display or you receive an SMS notification (depending on the local service)
 - **VM** remains on the display until you have listened to all your voice messages.
- 2 Press and hold **1** to automatically dial your voicemail number
 - If the number is not valid, contact your service provider.
- 3 Follow the recorded instructions for your voicemail
- 4 **End** when finished

Activate Quiet Mode

- 1 To quickly set the phone to your preset Quiet Mode settings, press and hold **# 3**
 - To change Quiet Mode settings, see "Editing Profile" on page 28.
- 2 To disable, press and hold **# 3** again

In-Call Options

During a call, [options icon] for options

Option	When [options icon] or [end call icon] is pressed
Hold Call	Put a call on hold. To resume, [options icon], [resume icon] Resume [end call icon] / [options icon]
From contacts	Access the contact list
Create SMS	Access Create SMS
Inbox (SMS)	Access Inbox (SMS)
Calendar	Access Calendar
Handsfree / Handheld	Switch to Desktop Handsfree or Handheld

Earpiece Volume

During a call: [volume up icon] / [volume down icon] to adjust earpiece volume

Desktop Handsfree

Desktop Handsfree allows you to have a conversation without holding the phone to your ear.

Swapping Between Handsfree and Handheld Calls

During a Handheld call:

[options icon], [volume up icon] **Handsfree** [end call icon] / [options icon]

During a Handsfree call:

[options icon], [volume up icon] **Handheld** [end call icon] / [options icon]

NOTE: Do not hold the phone to your ear in Handsfree mode.

DTMF Tones

DTMF tones can be sent during conversation. These are often used to access voicemail, paging and computerised home banking. For example, you may need to input a number to remotely access voicemail messages. A phone number may be stored in Contacts with DTMF tones, allowing the number to be dialled upon recall and the DTMF number to be sent automatically.

Send DTMF Tones During a Call:

Press digits (0 + ~ 9 wxyz, # *, * *)

Pause Dial:

Using pauses allows you to send DTMF tones automatically.

- 1 Enter phone number
- 2 Press and hold # until a P is displayed at the end of the phone number entered
- 3 Enter DTMF digits after the pause, e.g. enter the number to access voicemail messages
- 4 ↶ / ●

When the call is connected DTMF tones will be sent after 3 seconds or ↶ to send the DTMF tones immediately.

Incoming Call While on a Call

During a call, you may receive another call. To enable this, call waiting must be on (see "Call Waiting" on page 39).

Accept a second call:

☎ / ☐ (The second call is active, the current call is put on hold)

The following options are available when two calls are connected.

Option	When ☐ or ● is pressed
Swap	Switch between two connected calls
Merge	Enable multi-party conversation when two calls are connected (one active, one on hold). All three parties can then talk to each other
From contacts	Access the contact list
Create SMS	Access Create SMS
Inbox (SMS)	Access Inbox (SMS)
Calendar	Access Calendar
Handsfree / Handheld	Switch to Desktop Handsfree or Handheld

Reject a second call:

☐ to reject the incoming call and to resume the call in progress.

End current call and receive second call:

☎ to end the call in progress, then press ☎ / ☐ to answer the incoming call.

NOTE: Call waiting is network dependent.

Making a Second Call

During a call:

Enter second phone number and ☎

or

☐ for options and select required contact from Contact list and ☎

- The first call is put on hold.

NOTE: Making a second call is network dependent.

Multi-Party Calls

- 1 Establish a multi-party call by merging two calls
- 2 Continue to add people to the multi-party call (up to 5 connections in total) by calling others or by accepting incoming calls

Multi-Party Calls:

A multi-party call has 3 or more people in conversation at the same time.

When making a call or accepting an incoming call, the multi-party call is placed on hold. The callers already in the multi-party call can continue to talk with each other while on hold. Each additional connection can then be merged into the multi-party call by , **Merge** / .

Multi-Party Call Options

You can select an individual from the multi-party call and split the conversation, allowing you to talk privately without the participation of the rest of the parties in the multi-party call.

- 1 During a multi-party call,
- 2 **Option** /
- 3 desired caller in the multi-party list
- 4 desired option

Option	When or is pressed
Split	Split the selected caller from the multi-party call so you can talk privately. The remaining multi-party callers are placed on hold and can still talk with each other. To rejoin the call, , Merge /
Ok	Close the options list

To end that call's connection, (End)

- 5 to end the multi-party call and all connections

Call log

Recently dialed phone numbers, answered calls and missed calls are stored in the Call log. It is possible to call and send messages from stored numbers.

Viewing Call log

- 1
- 2 **Dialed numbers, Answered calls or Missed calls**
- 3 required phone number

Sending Messages

- 1
- 2 **Dialed numbers, Answered calls or Missed calls**
- 3 required phone number
- 4
- 5 **Send message** /
- 6 **MMS or SMS** /
- 7 Enter a message

For details on creating a message, see “Creating a New MMS” on page 53 or “Creating a Text Message” on page 62.

Saving a Phone Number from Call log into the Contacts list.....

- 1
- 2 **Dialled numbers, Answered calls or Missed calls**
- 3 required phone number
- 4
- 5 **Add to contacts** /
- 6 **Phone or SIM** /
- 7 required icon
- 8 Enter as appropriate
(If required, repeat steps 7 and 8)
- 9

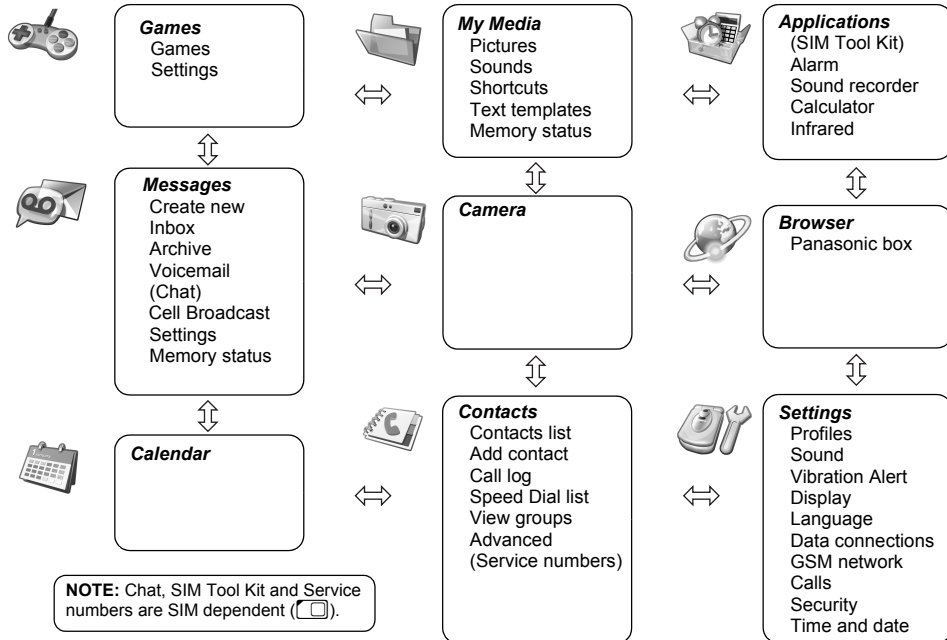

Options in Call log.....

In each Call log list, the following options are available.

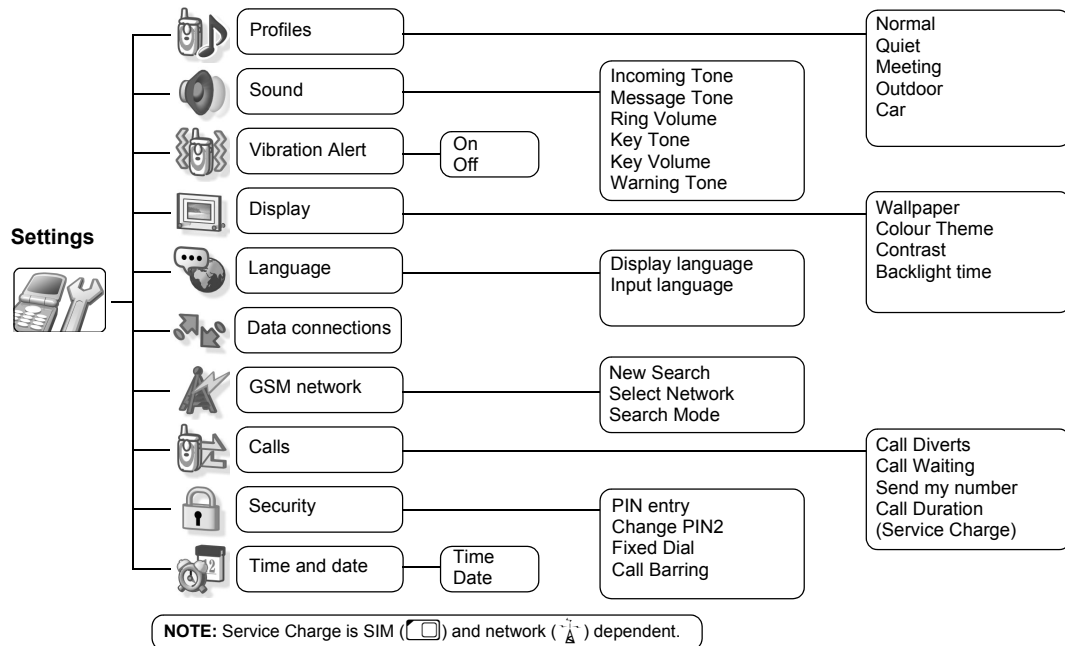

For options

Option	When or is pressed
Call	Call selected number
Send message	Send MMS/SMS message to selected number
Add to contacts	Store number to Contacts
Delete	Delete selected log
Delete all	Delete all logs in the list (This option is available in the Call log list.)

Changing to a New Network

The New Search function is used to manually select a network that is available in your current location.

From **GSM network** menu

- 1 **New Search** /
- 2 required network /

Select Network

View available networks

From **GSM network** menu

- 1 **Select Network** /
- 2 required network
- 3 required option (see page 36) /

NOTE: MCC/MNC code will appear on the display. MCC is Mobile Country Code, MNC is Mobile Network Code.

Settings

GSM network

National regulations may not permit roaming in your home region.

When the Search Mode is set to Automatic the phone will automatically reselect a new network in order to maintain optimum network availability. The Network List is used when the Search Mode is set to Automatic. The location numbers in the Preferred Network List show the search priority. You can amend the List as follows:

Option	Explanation
Add	Store a new network at the end of the list
Insert	Store a new network in the currently displayed location and move other networks down
Edit	Overwrite the old network with a new one
Delete	Delete the network you have selected

Search Mode

It is possible to set your phone to automatically or manually search for the other networks when roaming.

From **GSM network** menu

- 1 **Search Mode** /
- 2 **Automatic** or **Manual** /

When the Search Mode is set to Manual the phone will only use a selected network. If coverage is lost another network should be manually selected.

Settings

Calls

Call Settings

Call Diverts

Voice calls can be diverted to different numbers in different situations. For example, you may wish voice calls to be diverted to Voice mail in the event that the phone is switched off.

To register a number to divert at first time:

From Calls menu

- 1 **Call Diverts** /
 - 2 the type of calls to divert (Options)
 - 3 **On** /
 - 4 **Direct input** or **From Contacts** /
 - 5 When you select **Direct input**, enter phone number to divert
(If you select after entering phone number, **Ok** /)
- OR
- When you select **From Contacts**, required contact from contact list

Request of Call divert will be send to network.

Entered phone number will be registered in the network. From next time, incoming calls will be diverted to the registered number.

- To cancel the registered phone number, **Off** on step 3.
- To cancel all the registered phone number, **Cancel all** on Step 2.
- To confirm the status of Call diverts, **Status** on step 3.
- To confirm all the status of Call diverts, **Status all** on Step 2.

Settings

Calls

When the number to divert is already registered:

From **Calls** menu

- 1 **Call Diverts** /
- 2 the type of calls to divert
- 3

Request of Call divert will be send to network.

When a divert situation is enabled the divert icon () is displayed.

When updating or checking the status of **Call Diverts** the phone must be registered with a network. ()

Call Divert settings

Settings	Explanation
All calls	Divert all incoming voice calls
When busy	Divert incoming voice calls when a call is in progress
When no reply	Divert incoming voice calls if call is not answered
When unreachable	Divert incoming voice calls when phone is disconnected
Cancel all	Cancel all Call Divert settings
Status all	Check the current Call Divert status of all connections

Calls

Call Waiting

If Call Waiting is switched on a second call can be received.

From **Calls** menu

- 1 **Call Waiting** /
- 2 After "**Call Waiting deactivated**" or "**Call Waiting activated**" is shown, /
- 3 If you select in step 2, **Ok** /

NOTE: If you select **Activate** or **Deactivate** in the step 3, you can reset Call waiting.

Send my number

It is possible to set whether or not to transmit your phone number to another phone (Caller ID).

From **Calls** menu

- 1 **Send my number** /
- 2 **Network set, On or Off** /

Call Duration

Displays the duration, if available, of incoming or outgoing calls. ()

From **Calls** menu

- 1 **Call Duration** /
 - 2 **Incoming or Outgoing** /
- To reset counter, x 2 / x 2

Settings

Calls

Service Charge

This function allows you to check the charges for your calls.

From **Calls** menu

Service Charge ● / ☐

The following can be set.

Menu Item	Explanation
Cost Left	Show how much cost is left
Call Meter	This is the total costs of calls made.
Price/Unit	This is the cost that the service Provider charges for one unit of call time.
Max Cost	Allows you to preset the maximum cost of calls made.

NOTE: The duration of one unit may vary during day, peak and off-peak times. Call charges can be calculated accordingly. However, the call charge information may not give an accurate reflection of the actual tariffs charged by your service provider.

NOTE: This function is SIM dependent SIM (☐) and network (A) dependent.

Settings

Security

If PIN is entered incorrectly 3 times the phone will be locked, and you will need to enter the PUK code. If PIN2 is entered incorrectly 3 times SIM will be locked, and you will need to enter the PUK2 code. If the PUK/PUK2 code is entered incorrectly 10 times, the phone will cease to operate permanently. All information stored in the SIM will be lost and the SIM will need to be replaced. Contact your service provider for more information.

Security Settings

The PIN protects your SIM against unauthorised use. If you enable the PIN, every time the phone is switched on you will be prompted to enter the PIN. The PIN2 controls security for the Fixed dial Store.

PIN entry

Enabling/Disabling PIN Entry

From **Security** menu

- 1 **PIN entry** /
- 2 **Enable/Disable** /
- 3 **Enable or Disable** /
- 4 When you select **Enable**, enter PIN code (4 - 8 digits)

Change PIN

From **Security** menu

- 1 **PIN entry** /
- 2 **Change PIN** /
- 3 Enter the current code
- 4 Enter the new code
- 5 To verify the new code

NOTE: You can change the PIN when PIN entry is set to **Enable**.

Change PIN2

From **Security** menu

- 1 **Change PIN2** /
- 2 Enter the current code
- 3 Enter the new code
- 4 To verify the new code

NOTE: This is SIM, Service provider and network dependent. (Please contact Service provider to get more information for PIN2 code.)

Settings

Security

Fixed Dial.....

Fixed Dial is a part of Contacts, but with added security.

When Fixed Dial is enabled:

- Only numbers that are in the Fixed Dial Store may be dialed.
- Any manually dialed phone numbers must match a number already in the Fixed Dial Store.

If you store, edit or delete a phone number, you have to enter your PIN2.

From **Security** menu

- 1 **Fixed Dial** /
- 2 **Enable** or **Disable** /
- 3 When you select **Enable**, enter PIN2 code

NOTE: This is SIM, Service provider and network dependent.
(Please contact Service provider to get more information for PIN2 code.)

Settings

Security

Call Barring

Call Barring restricts certain outgoing and/or incoming calls using a password supplied by your service provider. When updating/checking the status of Call Barring the phone must be registered with a network. Varying call restrictions can be used for voice calls.

From **Security** menu

- 1 **Call Barring** /
- 2 required setting from the table shown below
(When you select , enter password (4 digits) /)
- 3 **On, Off or Status** /
- 4 When you select **On** or **Off**, enter password (4 digits) /

NOTE: You can skip the following steps if you enter your password in step 2.

Settings	Explanation
Bar outgoing calls	Outgoing calls are barred
Bar foreign calls	International outgoing calls are barred
Only local & home	International outgoing calls except home are barred
Bar incoming calls	Incoming calls are barred
Bar incoming if abroad	Roaming is barred
Cancel all	Cancel all call bar settings
Status all	Call bar status is displayed
Password	Change call bar password

Settings

Time and date

Time and date can be shown on the top of the display when in Idle mode.

Time and date

Setting Time and date

From **Time and date** menu

- 1 **Time** /
- 2 ~ to enter the time using 24 hour clock /
- 3 **Date** /
- 4 ~ to enter the date /

NOTE:

Some settings may be lost if the battery is removed or remains discharged for more than 1.5 hours.

Camera

Camera

Taking a Picture.....

The range from the camera is 30 cm - ∞.

From **Camera** menu

☒ or ☐ to capture the image

To store the image in My Media: (After capturing the image)

☒ or ☐

The picture will be saved in **My Media / Pictures / Stored pictures**.

To return to camera operation without storing the image: (After capturing the image)

NOTE: If you press ☒ after capturing image, the picture can be attached to MMS.
See "Sending a Message" on page 55.

You can take pictures with the built-in camera, send them in an MMS (multimedia message) or by Infrared and use them as Wallpaper. You can also attach a picture to a contact in your Contacts list.

Adjust the brightness level.....

While view finder is active, you can adjust the brightness.

 to increase the brightness

 to decrease the brightness

Picture brightness indicators (min 5 Lux):

  Brighter

  ↑

  Normal

  ↓

  Darker

Options in View Finder.....

For options list 

Option	When  or  is pressed
Twilight mode	Improve picture taken in low light conditions (On, Off)
Anti-flicker	Reduce flicker in view finder (mode 1: 50 Hz, mode 2: 60 Hz)
Image size	Change image size (352×288 pixels, 160×120 pixels)

**Use and Save Pictures**

Once a picture has been taken it will be saved in My Media. To use a saved picture as your personal wallpaper or for Contacts, see “Setting Wallpaper” on page 33 and “Storing a Number in Your Phone” on page 75.

When My Media is full, pictures cannot be stored, until some are deleted first.

Incoming Calls during Camera Operation.....

If an incoming call etc, is received during camera operation, the phone will exit the camera mode and switch to the incoming call etc.

NOTE: The captured image will not be saved.

Self-portrait

The shutter button located on the side of the phone can be used to capture an image, for example, a self-portrait. You can activate the camera mode and take a picture by using the shutter button with your phone shut.

Viewing Pictures

Pictures taken by the camera are created as JPEG image files. JPEG is standardised image compression format. JPEG image files can be viewed with most general image viewers and editors as well as with an Internet browser.

NOTE: Do not leave the phone with the Camera facing direct sunlight to avoid impairing camera performance.

If the Camera is left in the preview mode or a captured picture is displayed the phone will automatically return to Idle mode or Launcher mode after 3 minutes. If left in preview mode, but with the options menu displayed, the phone will remain in this state and will not return to Idle mode.

Text Entry (Edit)

You can use alphanumeric characters to enter details into Contacts, to create text, email messages, etc.

Key	Text Mode		
	T9® (T9↑, T9↑ or T9) (Input language: English)	Multi tap (Input mode indicator: Abc, ABC or abc)	Numeric (Input mode indicator: 0-9)
	Alternatives	. @ / - _ + 0	0/ (Hold)+
	., - ? ! ' ' @ : ; / 1 /(Hold) Character list	..?1!"-:; @ / * () # + _ = [] { } ' ; ' & % \ ^ ~ < > £ \$ ¥ ¢ § Space / (Hold) Character list	1
	A B C 2 (a b c 2)	A B C 2 Ä Å Æ Ç (a b c 2 ä å æ à)	2
	D E F 3 (d e f 3)	D E F 3 Δ É (d e f 3 é è)	3
	G H I 4 (g h i 4)	G H I 4 (g h i 4 l)	4
	J K L 5 (j k l 5)	J K L 5 (j k l 5)	5
	M N O 6 (m n o 6)	M N O 6 Æ Ñ Ö Ø (m n o 6 ñ ö ø ò)	6
	P Q R S 7 (p q r s 7)	P Q R S 7 (p q r s 7 ß)	7
	T U V 8 (t u v 8)	T U V 8 Ü (t u v 8 ü ù)	8
	W X Y Z 9 (w x y z 9)	W X Y Z 9 (w x y z 9)	9
	Shift / (Hold) Input mode	Shift / (Hold) Input mode	* / (Hold) Input mode
	Space / (Hold) Line feed	Space * # / (Hold) Line Feed	# / (Hold) Line Feed
	Delete text / (Hold) Delete all characters		

NOTE: Displayed characters of T9® vary depending on the selected input language.

Shift mode

Shift mode change

The Shift mode changes by pressing (within 1 sec) *⬅➡.

Multi tap	Tegic
Abc -> ABC -> abc	T9↑ -> T9⬆ -> T9

If Input mode is changed, Shift mode is initialised.

Auto capital change

Auto capital affects Abc and T9↑.

If Input mode is changed to Abc or T9↑, the first character is input as upper case and subsequent letters as lower case. (Input mode indicator changes to abc or T9.)

If these characters [. (Period) or ! or ?] are input, the next character is input as upper case. (Input mode indicator changes to Abc or T9↑.)

Input mode

Input mode change

Input mode changes by pressing and holding (over 1 sec) *⬅➡.

Input Mode
Multi tap -> Numerals -> T9 (Selected tegic language) (Abc -> 0-9 -> T9↑)

Keep Input mode

The phone keeps the selected input mode.

Text Input

T9®

Using this mode of text input dramatically reduces the number of key presses required: Press a key once for any letter you require on that key. The desired letter may not be displayed. Continue pressing other keys until the end of a word is reached; then check that the word has been typed correctly before continuing on to the next word. If the combination of letters typed has produced a word which is not the one you require, press ,  or  repeatedly until the correct word is displayed. Continue to the next word.

Example of Text Input in T9 Mode

To type a new message, follow these steps:

- 1 At the beginning of a new message press and hold  (CLEAR) to delete previous text, if necessary.
- 2 Press  (SHIFT) to change letter case, if necessary.
- 3 Press    .

"Call" is displayed.

Note that the displayed words change as you type, always type to the end of the word before editing.

T9® Languages can be selected from T9 Input, in options  →  **Input language**  / 

If the word you require is not in the internal dictionary then it should be entered using the Multi tap (Abc) mode.

Other Text Modes

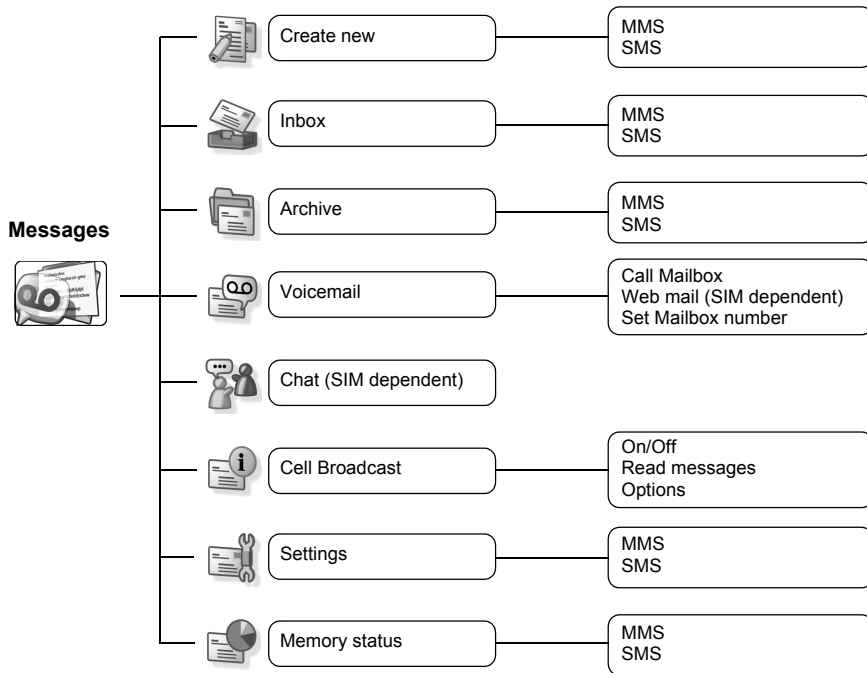

Select text mode (displayed in top right corner on screen)

Multi tap mode (Abc, ABC or abc):

Each time a key is pressed in quick succession it displays the next character available on that key. Releasing the key or pressing another key enters the character displayed. The cursor moves to the next position.

In T9 (T9↑) or Multi tap (Abc) mode, the first entered letter in a sentence is in upper case.

Messages menu structure

Messages

Messages

This phone has various messaging features including SMS and MMS.

MMS (Multimedia Messaging Service)

Your phone is designed to be compatible with certain Multimedia Messaging Services (MMS). You can send pictures and music with text messages. The recipient can play it as a Slide show. MMS messages can be sent to another mobile phone with MMS capability or to an email address. When you receive an MMS message, a notice will inform you that you have received a message. (See page 57.)

An MMS profile may already have been set when you purchased your phone. To change the settings, see page 60.

You can directly access Messages from Idle Mode with the Left Soft Key (⏏) or the Left Key (⏏).

Messages

Create new

Creating a New MMS

From **Create new** menu

1 **MMS** /

When creating a message, these selections are available.

Selection	Explanation
Add picture	Select a picture stored in Stored pictures / Download / Take new picture and insert it into the MMS message
Add text	Create text and add to MMS message
Add sound	Select sound stored in Stored sounds / Download / Record new sound and add to MMS message

2 After selecting a picture or sound or entering text, press for the following options.

Option	When or is pressed

Browser

Browser

The phone's WAP (Wireless Application Protocol) Browser enables you to access Internet services supported by the network, such as news, weather reports, sport etc.

Server Setting

Before Internet services can be accessed, you need to subscribe to your network operator or Internet Service Provider (ISP) to enable the relevant configuration information. Please contact your network service provider to ensure that your network settings are correct.

NOTE: Modifying previously entered settings can cause failure of the Browser.

From **Browser** menu

- 1
- 2 **Settings** /
- 3 **WAP profiles** /

Ten server settings can be set up in the phone. If you find your server's name under WAP profiles, select the server and press (Options) then select **Edit** and press . If no settings are present contact your Network Service Provider for these settings. [Profile name, Homepage, Gateway, Port, Data connections (GPRS and CSD setting)]

NOTE: You need to set GPRS and CSD Setting in Settings>Data connections menu before setting the server information.

Those configuration Options will be given by Network service provider.

Once completing the entry, press (Save) then press or select **Activate** after (Options) is pressed.

The first time that the browser is activated there will be no content stored so the Home URL content will be displayed (as defined by the network operator). The Home URL will be recalled from the cache, each time the browser is activated. (Cache is the phone's memory that stores content downloaded in the past.)

Games

Games

Games

Selecting Games

Five games are pre-installed: **truck**, **SQUARE**, **SLOTZ**, **NINJA ACTION** and **MobileGolf**.

From **Games** menu

required game you wish to play /

truck

This game is an action puzzle game. The purpose of this game is to guide the truck from the starting point to the goal within a specified time limit. The player moves the tiles on the screen to connect the rails to complete a track.

Key Operation

to move the tile to the open space in each direction.

When you collect an item (spring or stopwatch) on a tile, the item becomes available and can be used by the and . (The spring enables you to jump skipping one tile. The stopwatch enables you to temporarily stop the truck for a limited time.)

SQUARE

This game is an action puzzle game. The purpose of this game is to clear blocks to score points. A group of outlined blocks fall from above. Build up the blocks to form a line. When a line is completed, the blocks forming the line are cleared.

Key Operation

or and to move the blocks.

or to rotate the blocks.

Games

SLOTZ

This game is a slot machine game. If the figures are aligned correctly, collect your bet.

Key Operation

- to enter the bet, ● again to start the drum turning.
- or (4 ghi), (5 jkl), (6 mno) to stop the drum.

NINJA ACTION

This game is an action puzzle game. The purpose of this game is to turn over the randomly arranged tatami mats so that they are all face up (green) within a specified time limit.

Key Operation

- ⬆ or (2 abc), (4 ghi), (6 mno) and (8 tuv) to move the character.
- or (5 jkl) to turn over four tatami mats above/below or on the left/right of the character.

MobileGolf

This game is a golf game. Compete against your score on all 18 holes.

Key Operation

- ⬆ to determine the direction, then ● to go to the shot screen.

On the shot screen,

- ⬆ to select the club to be used, ● once to start the shot and ● again to determine the strength of the shot. Finally, ● while matching the timing to execute the shot.

Games

Tool KIT →

Alarm

When the set time is reached, the alarm will sound and the display will light with an alarm message.

STK.....

This function is SIM dependent (☐). This menu name will be changed.

Alarm

Setting the Alarm.....

From **Alarm** menu

- 1 alarm icon (🔔) ●, On ● / ☐
- 2 clock icon (🕒) ●, enter the required time (24 hour clock) ● / ☐
- 3 alarm repetition icon (🔔) ●, Once, Everyday, Weekdays or Weekend ● / ☐
- 4 sound set-up icon (🔔) ●, Preinstalled, My Media or Download ● / ☐, required ring type ● / ☐ (When you select **My Media**, 🔊 to select required ring type.)
- 5 volume icon (🔊) ●, adjust the volume ● / ☐
- 6 ☐ to save settings

When the alarm has been set, an alarm icon (🔔) will be displayed when the phone is in Idle mode.

The alarm is activated based on the current clock.

Applications

Alarm

Muting the Alarm.....

To end the alarm:

- 1 Press any key or
- 2 /

Disabling the alarm:

From **Alarm** menu

- 1 alarm icon ()
- 2 **Off** /
- 3

Adjusting the Alarm Time.....

From **Alarm** menu

- 1 clock icon ()
- 2 Enter the required time /
- 3

If you wish to change other settings, see "Setting the Alarm" on page 98.

Snooze Function

Snooze Function lets the alarm repeat 5 times if you do not press / after stopping the alarm or press to stop the alarm.

To stop Snooze Function:

<Phone on>

Press (Ok) / when "Stop snooze?" appears in the display.

If you press / , the alarm will repeat 5 more times at 5 minutes intervals until "End of alarm" is displayed.

<Phone off>

The alarm starts at the time you set.

Press (Ok) / when "Stop snooze?" appears in the display.

If you press / , the alarm will repeat 5 more times at 5 minutes intervals until "End of alarm" is displayed.

Applications

Sound recorder

Sound recorder

You can record sounds or your voice in My Media. The sounds you record can be attached to MMS.

When My Media is full, sounds can not be recorded until a previous recording is first deleted.

To record new sound:

From **Sound recorder**

- 1 ● / □ to start recording
- 2 ● / □ to stop recording (The max. recording time is 15 seconds)
- 3 □
- 4 ⬆ **Save** ● / □

If you select **Send MMS**, you can access the MMS menu.

To play a sound:

- after step 2

To stop playback, ● / □

NOTE: ⬅ ➡ to adjust the volume while playback.

Calculator

Calculator

The four function calculator enables the user to perform simple arithmetic calculations (addition, subtraction, multiplication and division).

From **Calculator**

- 1 Enter a number (maximum 10 digits) and it will be shown on the display
If a decimal point is required, press □
- 2 To select arithmetic operation
(⊗ to multiply, ⊕ to add, ⊘ to divide, ⊖ to subtract)
- 3 Enter a number (maximum 10 digits) and it will be displayed
- 4 ● to calculate the result

Applications

Infrared

Infrared

By using the infrared connection with another X66 or with other devices with an infrared port, you can transfer data between the devices.

Preparing for Infrared Connection

- Place the X66 and another device with an infrared port within the effective infrared connection range of each other.
- There must be no obstruction between the two communicating devices.
- The infrared ports of both devices must point at each other.
- If you use a PC, you need to set up an infrared connection on the PC.
(Example: **Start > Settings > Control Panel > Infrared > Options tab > Enable Infrared Communication**)

Sending Data

The types of data you can send are: Contacts, Pictures and Sounds in My Media.
Ensure that the infrared ports of your X66 and the second phone or device are pointing at each other with no obstructions in between.

NOTE: Some download files may be protected due to copyright laws.
These files can not be sent.

Applications

Infrared

If you try to send data that cannot be forwarded or saved, an error message will be displayed.

Setting Infrared

You need to activate infrared before receiving data.

From **Infrared** menu

- ☒ to activate

Sending Pictures and Sounds

From Idle display

- 1 ☒
- 2 **My Media** ☒ /
- 3 **Pictures or Sounds** ☒ /
- 4 required item ☒ /
- 5 select data to send
- 6 **Send by Infrared** ☒ /

Applications

Infrared

Sending Contacts.....

From Idle display

- 1
- 2 **Contacts** /
- 3 **Contacts list** /
- 4 select contact to send
- 5 **Send by Infrared** /

Receiving Data via Infrared Port.....

You need to activate infrared before receiving data.

Data received message is displayed then sent data is displayed.

- / to save the data
- to cancel

Calendar

Calendar

Viewing Calendar

From **Calendar** menu

 will display recent and future calendars

For options list 

Option	When  or  is pressed
Go to date	Jump to the required date
Week starts on	With the calendar, it is possible to select which day the week starts on

My Media menu structure

My Media

My Media

The data saved in the X66 is located in My Media. There are four pre-defined folders (Pictures, Sounds, Shortcuts, Text Templates). The maximum capacity of the Data Folders is approx. 1 MB.

Pictures

Pictures (My Media > Pictures)

Pictures taken by the camera or images downloaded from the Internet can be managed.

Viewing Picture / Image

From **Pictures** menu

- 1 **Stored pictures** /

Troubleshooting

Should any problem persist contact your dealer.

Problem	Cause	Remedy
Phone will not switch on.	_____	Check that the battery is fully charged and correctly connected to the phone.
Extremely short battery life for a new battery.	The network you are using and the condition of the battery can affect battery life.	_____
Short battery life for an old battery.	The battery has worn out.	Replace with a new fully charged battery.
The charging indicator does not light, the battery level indicator does not appear and the phone cannot be switched on when charging.	The battery is not attached to the phone or when the battery has been deeply discharged the phone will take a short time until the indicator lights.	Leave the phone charging the battery for a few minutes before the indicator is lit and attempting to switch it on.
Battery fails to charge.	The battery is not attached to the phone.	Ensure the battery is fitted to the phone prior to commencing charging.
	Battery has been connected to the phone after the Fast Travel Charger has been switched on.	
Calls cannot be made.	The phone is locked.	Unlock the phone.
	Outgoing calls are barred.	Disable the outgoing call barring or barred dial.
	The phone is not registered to a network.	Move to a coverage area and operate your phone after it has registered with a network.

Problem	Cause	Remedy
Calls cannot be made from Fixed Dial Store.	_____	Check whether your SIM supports Fixed Dial Check if the Fixed Dial is switched on Check whether the phone number is stored in the Fixed Dial.
Calls cannot be received.	The phone is not switched on.	Switch the phone on.
	Incoming calls are barred.	Disable the incoming call barring.
	The phone is not registered to a network.	Move to a coverage area and operate your phone after it has registered with a network.
Emergency calls cannot be made.	You are not in a GSM coverage area.	Check that the antenna symbol  is displayed – move to a coverage area and operate your phone when the antenna symbol is displayed.
Phone numbers cannot be recalled from Contacts.	The phone is locked.	Unlock the phone.
	Phone number has been restricted.	Switch off restriction.

Important Error Messages

These are some of the most important error messages which may be displayed:

Failed	Roaming in the selected area is not allowed.
	Roaming with the selected network is not allowed.
	The network has detected an authentication failure because your SIM is not registered with that network – contact your service provider.
SIM blocked	The SIM is blocked because one of the PIN/PIN2 unblocking keys (PUK/PUK2) has been entered incorrectly ten times – contact your service provider.
Insert SIM	The phone has detected a problem with the SIM – switch the phone off and then back on; if the message is still displayed contact your service provider.
Invalid SIM	The SIM has failed one or more of the SIM personalisation checks – contact your service provider.
Function unavailable	The selected feature is either not supported by the SIM or is not available with the current subscription – contact your service provider.
PIN2 invalidated	The PIN2 is blocked permanently because the wrong PUK2 has been entered ten times, services controlled by PIN2 cannot be used – contact your service provider.
Message rejected. Storage full or Message rejected. SIM full	A message has been received but the message store is full – to receive messages, delete some of the currently stored messages.
Too many characters.	The edited or newly created Contact number is too long for the SIM.

This message may not be stored	The message area is full. Your messages cannot be stored until some of the currently stored messages are deleted.
Verification failure	On changing the phone lock code, verification of the new code is incorrect – retry changing the lock code with correct verification.
Incorrect Code	Disabling or enabling the lock code has failed due to incorrect entry of the lock code – re-enter lock code.
Wrong entry	The entered code is incorrect – re-enter code correctly.
Auto redial list full	Redial list of unsuccessfully dialled numbers is full – switch the phone off and then on again.

Glossary of Terms

APN	Access Point Name. Directs the user to the gateway or the required service.
CHAP	Challenge Handshake Authentication Protocol. A security feature in the GPRS network.
Copy	Copies selected text from a short text message without removing it from the original message.
CSD	Circuit Switched Data. A communication method used to transmit data over telephone connections.
Cut	Permanently removes selected text from a short text message.
DTMF Tones	Dual Tone Multi-Frequency tones allow you to communicate with computerised phone systems, voice mailboxes, etc.
GPRS	General Packet Radio Service. A GSM transmission technique that transmits and receives data in packets rather than setting up a continuous channel. It makes very efficient use of available radio spectrum and users pay only for volume of data sent and received.
GSM	Global System for Mobile communications. The name given to the advanced digital technology that your phone uses.
MMS	Multimedia Messaging Service. An advanced mail system used for cellular phones. This service allows sending/receiving text messages and attaching pictures, animation and sound to the same.
Network Operator	The organization responsible for operating a GSM network.
PAP	Password Authentication Protocol. A security feature in the GPRS network.
Password	Used for the control of GPRS/CSD settings in Data connections and the control of Call Barring. Supplied by your service provider.
PIN	Personal Identification Number used for SIM security. Supplied by your service provider. If the PIN is entered incorrectly 3 times, the PIN will be blocked.

PIN2	Personal Identification Number used for the control of Fixed Dial Store and Call Charge metering. Supplied by your service provider. If the PIN2 is entered incorrectly 3 times, the PIN2 will be blocked.
PUK/PUK2	PIN/PIN2 Unblocking Key. Used to unblock the PIN/PIN2. Supplied by your service provider. If the PUK/PUK2 is entered incorrectly 10 times, the PUK/PUK2 will be blocked.
Registration	The act of locking on to a GSM network. This is usually performed automatically by your phone.
Roaming	The ability to use your phone on networks other than your Home network.
Service Provider	The organization responsible for providing access to the GSM network.
SIM	Subscriber Identity Module. A small smart-card which stores unique subscriber and user-entered information such as Contacts and Short Messages. Supplied by your service provider.
SMS	Short Message Service. A basic mail system used for cellular phones. This service allows sending/receiving short text messages.
URL	Uniform Resource Locator. The URL is an alphanumeric address that points to home pages and other Internet locations.
WAP	Wireless Application Protocol. The communication standard which enables you to download resources from the Internet to your phone.

Specifications

Bands Supported	GSM900 Class 4 GSM1800 Class 1
Talk Time	1.5 hrs. - 5 hrs. (90 min. - 300 min.)
Standby Time	75 hrs. - 230 hrs.

NOTE: Talk and Standby time depend on network conditions, SIM usage and battery condition.

Temperature Range	
Charging	+5 °C – +35 °C
Storage	-20 °C – +60 °C
Volume	Approx. 74 cc
Weight	Approx. 82 g
Dimensions	
Height	75.5 mm
Width	44.5 mm
Depth	27 mm
Supply Voltage	3.7 V (680 mAh Li-ion)
Antenna	External
Charge Time	Up to 120 min.

NOTE: Charging time depends on usage and battery condition.

SIM Type	3 V only or 3V / 5V
Contacts Size	300 entries + SIM
Sound Recorder	Each max. record size 15 seconds (Varies depending on My Media)
Games (Pre-Installed Games)	5
Backlight Colours	1 (White)
Ring Tones	10 Fixed; (Varies depending on My Media)
Alarm	1
Graphics Formats Supported	GIF87a, GIF89a, JPEG, WBMP, PNG
Memory Storage	
My Media	1 MB
MMS	700 KB
Camera range	30 cm - ∞

NOTE: When switching the phone off, use only  to avoid damaging the phone.
